○ Standard ✕ No ✕ Option

The best choice for multi-function, high-efficiency, and fashion design

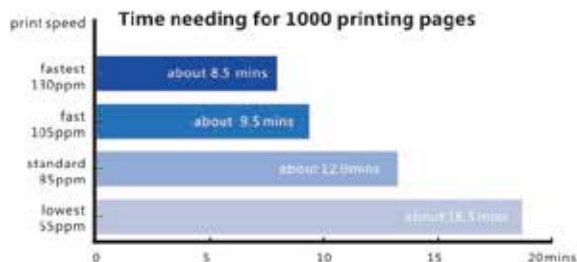

Big LCD panel, easy to operate. A3 paper scan, A3 document feed, B4 size. It is easy to satisfy various printing requirements and realize the best performance on pc-connected printing and topping printing.

Master eject capacity is easy for 50 sheets.

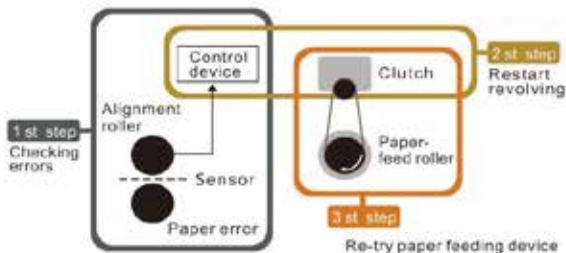

Innovative design of paper feeding by double rollers which is much stable. Simultaneously feed paper to guarantee one page input only once time.

With 130PPM fast printing speed, VR-6515S realizes easy processing even for high-volume printing work. In addition, with multi-shift adjustment switches, VR-6515S adapts to different thickness of paper feeding.

100% strong production capacity. Normally 1000 sheets paper-receiving capacity, even can reach 1500 sheets. Paper feeding tray can heap 1000 sheets at once during high-speed printing.

Precise paper feeding pressure adjustment realize excellent printing of various paper types, from 40g-210g/m². Three shifts pressure adjustment from thin paper to thick paper enhances reliability.

More flexible and easier to control

File Mode	Input password:		Original Size
Single File			B 4
Image Mode			Zoom Ratio
Text>Photo			+
Master-make Density			100%
Standard		0 1 R 1 G	
Scan Density	Print Position	Print Speed	
Standard	0 mm	3 Level	

Simple operation

Error like paper jam etc. is easily found and understood through the control panel and solved by the new user.

Obvious operation control panel

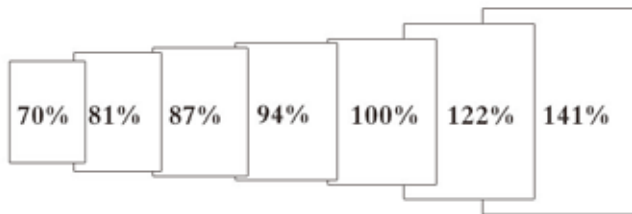

The control panel is made up of LCD display on the left and easy-operated keys on the right, both are convenient for operation.

Upgraded management

Confidentiality mode, Consumable used-out reminder, The original scanning adjustment, Stencil length adjustment, Auto shut off, U-disk master making strengthen the working efficiency.

Technical innovation, achieve super printing

7 Variable of zoom ratio.

5 variable (lighter, light, middle, dark, darker)

Enlargement/ Reduction functions

This function helps in optimizing the layout and presentation of documents, ensuring they meet the specific needs of various tasks.

Auto printing density adjustment

It is so humanized that it will adjust the printing density automatically, controlled by PCB process, to keep stable output not affected by environment or print speed.

Color printing

It can realize color printings by changing color drum, emphasizing on the special files. It brings a lot of benefit to save cost of color printing by 50% vs. other supplier as well.

Auto shade elimination

VR-6515S eliminates the shade automatically when printing to keep the paper clear and clean.

Two in one function

This function easily and efficiently makes two originals to be printed in one page.

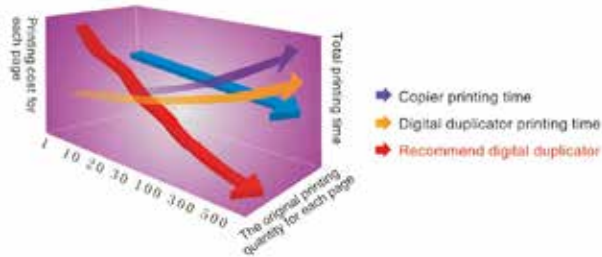

Excellent paper collection performance

The adoption of the new W-shaped paper output structure has greatly improved the machine's paper collections.

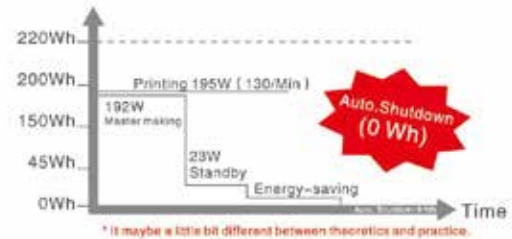

Super low cost

VR-6515S is cost-effective. It is more aggressive in features and low-cost. The more you print, the lower cost you accord, for consumable master and ink .

Auto shade elimination

VR-6515S eliminates the shade automatically when printing to keep the paper clear and clean.

PC-connected printing with high-quality output

VR-6515S is equipped with USB port. It is a standard printer, simplifying complex office tasks by high speed PC printing so that output high quality image with less time , even for small picture and text.

Traditionally 4 steps process by operator for long time.

- saving print time
- improving efficiency
- higher print quality

Newly operation by 2 steps process, connecting PC by remote control.

GENERAL

Model:	VR-6515S
Operation mode:	Scanner mobile scanning, thermal master making, memory printing, A3 scanning, B4 printing.
Scan mode:	Book scan
Original type:	Sheet, Book ($\leq 10\text{kg}$), Two in one
Image processing mode:	Text/Text&Picture/Picture&Text/Picture/Screen/Newspaper/Pencil
Original size(min/max):	Min: 50×90mm Max: 310×432mm
Printing area(max):	252×358mm
Master making speed:	19s (A4 vertical)
Resolution:	Scanning: 600×600dpi Master making: 300×400dpi
Duty cycle:	800,000 prints per month
Printing reproduction Ratio:	Reductions: 71%, 81%, 87%, 94%; Enlargements: 100%, 115%, 122%, 141%; Free zoom: 50-200% (1% increment)
Printing speed:	Five Steps Variable (55/ 70/ 85/ 105/ 130 ppm)
Image positioning:	Horizontal: $\pm 10\text{mm}$, Vertical: $\pm 10\text{mm}$
Scanning density:	5 variable (lighter, light, middle, dark, darker)
Master making density:	5 variable (lighter, light, middle, dark, darker)
Master ejecting capacity:	50 sheets
Power supply:	220V, 50Hz, 2A
Rated input power:	150W
Features:	PC-connected printing, Ink-saving mode, Pencil mode, Newspaper mode, Screen mode, Book shadow erasure, Programmed printing, Confidentiality mode, Code mode, Consumable used-out reminder, Auto checking the original, Energy-saving function, Print contrast adjustment, The original scanning adjustment, Stencil length adjustment.

PAPER HANDLING

Paper size(min/max):	Min: 90×140mm Max: 310×432mm
Paper Weight(min/max):	40~ 157g/㎡ (up to 210g/㎡)
Paper feeding capacity:	1000 sheets
Paper receiving capacity:	1500 sheets
Paper feeding system:	Double roller feeder

OPTIONAL FUNCTION

Auto shut off, Network printing function, Auto-print pressure adjustment, U-disk master making

OPTIONAL PARTS

Sorter, Color drum

CONSUMABLES

Master supply:	Fully automatic (B4: 90m/roll, 173 masters)
Ink supply:	Fully automatic (600ml/ bottle)
