SIMPLE

BUT
EXTRAORDINARY

JR-5360S

LCD screen. Scan and print 300 x 600 dpi. 140 PPM. A3 scan and B4 print

**Ultra-low cost**

Compared with other printers within the same cost range, this model is not only more powerful but also more economical for the long term use. It uses master rolls and inks as consumables, with more the number of prints, making lower the cost of printing per sheet.

save 50%
50% less overprinting costs comparing with other brands

original

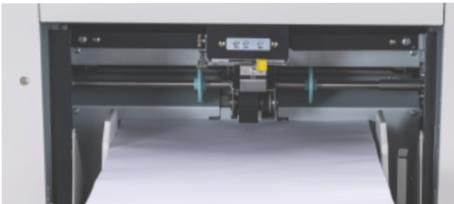

combine

Color printing

No longer a single printing color, Users can replace the drum to achieve multi-color printing and enjoy a sharp contrast to highlight the key areas on the documents. Meanwhile, the cost of overprinting is 50% less than overseas brands, which brings great benefits to end users.

**Operation Panel-LCD Screen**

Operation Panel-LCD Screen makes it more convenient and user friendly. Even a newbie can use it comfortably.

**Double paper feeding system**

Double paper feeding system, scientific design of paper grabbing strength, making the paper out more smoothly. The side of the system has an auxiliary function to prevent multiple sheets of paper from coming out at the same time.

**Waste master roll collect module**

Fully-automatic waste master box with a capacity up to 40 sheets, auto-warming when it is full, making it more easier to cleanup with on-screen notice.
