Root in China
Print over the world

Model	JR-6360S
Operation mode	Scan head mobile scanning, thermal master making, memory printing, A3 scan, B4 print
Operating interface	5.1" LCD screen
Original type	Sheets, Book (≤ 10kg), two-in-one
Processing mode	Text, image, image>text, text>image, newspaper, screen, pencil
Original size	Min:50mm×90mm;Max:310mm×432mm
Printing area	252mm×360mm
Printing paper size	Min:90mm×140mm;Max:310mm×432mm
Master making time	In 19s (A4 Vertical)
Resolution	300dpi×600dpi
Printing zoom ratio	Standard: 71%,81%,87%,94%, 115%,122%,141% Free zoom: 50% - 200% (1% increment)
Printing paper weight	40g/m²~157g/m²
Paper feeding capacity	1000 sheets (70g/m²)
Paper receiving capacity	1500 sheets (70g/m²)
Printing speed	6 Levels adjustment (55, 70, 85, 105, 130 pcs/min), maximum 150 pcs/min
Printing position adjustment	Horizontal: ±10mmVertical: ±10mm
Scanning density	The lightest, the lighter, the standard, the darker, the darkest
Master making density	The lightest, the lighter, the standard, the darker, the darkest
Master ejection capacity	50 sheets
Ink supply	Fully Automatic (600 ml/pc)
Master supply	Fully Automatic (90 m/roll)
Power supply	220V, 50Hz, 2A
Power	150W
Paper feeding system	Double feed
Weight	Net weight: 95kg, Gross weight: 127kg
Size (Length×Width×Height)	Work 1310 × 720× 630 mm;Storage 670 × 720× 630 mm
Standard function	Online printing, Ink saving mode, Pencil mode, Newspaper mode, Screen mode, Book shadow elimination, Grouping function (Programmed printing), Password mode, Confidentiality function, Consumable exhaustion prompt, Automatic detection of original documents, Energy-saving, Bottom ash concentration adjustment, Scanning of original document length adjustment, Plate length adjustment
Optional function	Network printing, Automatic shutdown, U-disk master making, Automatic printing pressure adjustment

Notice: The bottom cabinet is an optional accessory. Meanwhile it has been RONGDA' s aim to continuously improve the performance of our products, and we reserve the right to improve the specifications of our products without prior notice.

Warm notice: The manufacturer is not responsible for the damage caused by using compatible consumables. Therefore, please use original consumables to protect your machine.

Safety notice: Before use,please read the instruction manual.

Root in China
Print over the world

SIMPLE

BUT EXTRAORDINARY

JR-6360S

5.1" LCD screen
Scan and print 300 x 600 dpi. 150 PPM. A3 scan and B4 print

RONGDA

JR-6360S

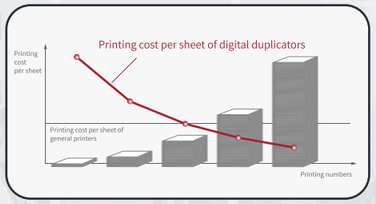
Originating from the four great inventions of China in ancient times, the printing technology now develop through the innovation of the times and the modernization of science and technology. The new generation RONGDA duplicator keep pace with users printing habit and standard paper type. JR-6360S digital duplicator will be your right choice. With 5.1 inch LCD, A3 scan, B4 print, tailoring for high speed and high quality output. Compatible with PC online master making function, much easier to realize perfect printing experience.

Operation Panel- LCD Screen

Operation Panel- LCD Screen makes it more convenient and user friendly. Even a newbie can use it comfortably.

Waste master roll organizer

Fully-automatic waste master box with a capacity up-to 50 sheets, auto-warning when it is full, making it more easier to cleanup with on-screen notice.



Energy saving and environmental protection

Selecting "Energy saving mode" and "Auto shutdown mode"(optional) on the panel to reduce the machine energy cost. With "Auto shutdown mode" setting, the machine will shutdown automatically at a specific time period set by the user to make energy consumption zero and realize absolute energy saving and environmental protection.

Ultra-low cost

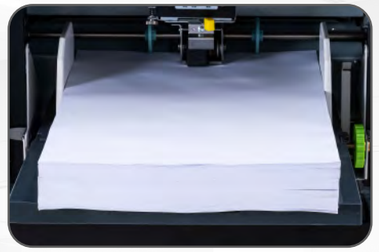
Compared with other printers within the same cost range, this model is not only more powerful but also more economical for the long term use. It uses master rolls and inks as consumables, with more the number of prints, making lower the cost of printing per sheet.

Color printing

No longer a single printing color, Users can replace the drum to achieve multi-color printing and enjoy a sharp contrast to highlight the key areas on the documents. Meanwhile, the cost of overprinting is 50% less than overseas brands, which brings great benefits to end users.

Two-in-one function

The superior 2-in-1 function allows two different originals to be one, which is efficient.



Double paper feeding system

Double paper feeding system, scientific design of paper grabbing strength, making the paper out more smoothly.

- 5.1" LCD
- 300×600dpi HD printing resolution
- 150 pcs/min high-speed printing experience
